Course Organization - Asynchronous Learning & MOOC content

- **Massive Open Online Course**
 - Remote and (often) asynchronous online courses *not* just for students enrolled in a specific university, but *ideally* open for everybody
 - Usually consist of pre-recorded lectures, interactive content and online quizzes
 - Some of you might have visited MOOC on platforms such as edX, LinkedIn Learning, Coursera, Udacity, etc. before
- We are currently developing a MOOC for the Limits to Growth Lecture
- This semester will be the first test run for this asynchronous and digital learning content
 - We are very happy about any feedback you can give us to improve the course further! Just write us an email: etce-ltg@tu-clausthal.de

Course Organization - Asynchronous Learning

- This semester we will include asynchronous learning for two of the lectures (L10 and L11)
 - Consisting of short pre-recorded videos and interactive content
- We will announce further information about these two sessions during the semester
