Values

Community

We work and live together with a dynamic based on sharing, love, respect and understanding for each other

Creativity

We use art and non-formal methods to find new and different solutions to problems

Sustainability

We live off-grid and consider our ecological footprint to reduce our impact on the planet

Guiding Principles

Self-management

Powerful and fluid systems of **distributed authority** and **collective intelligence**

Safely express vulnerability

Nurturing a space of **trust, honesty and communication** without judgment

Create opportunities

Empowers people at a local and global level in order to **create a social movement**

Connect to yourself

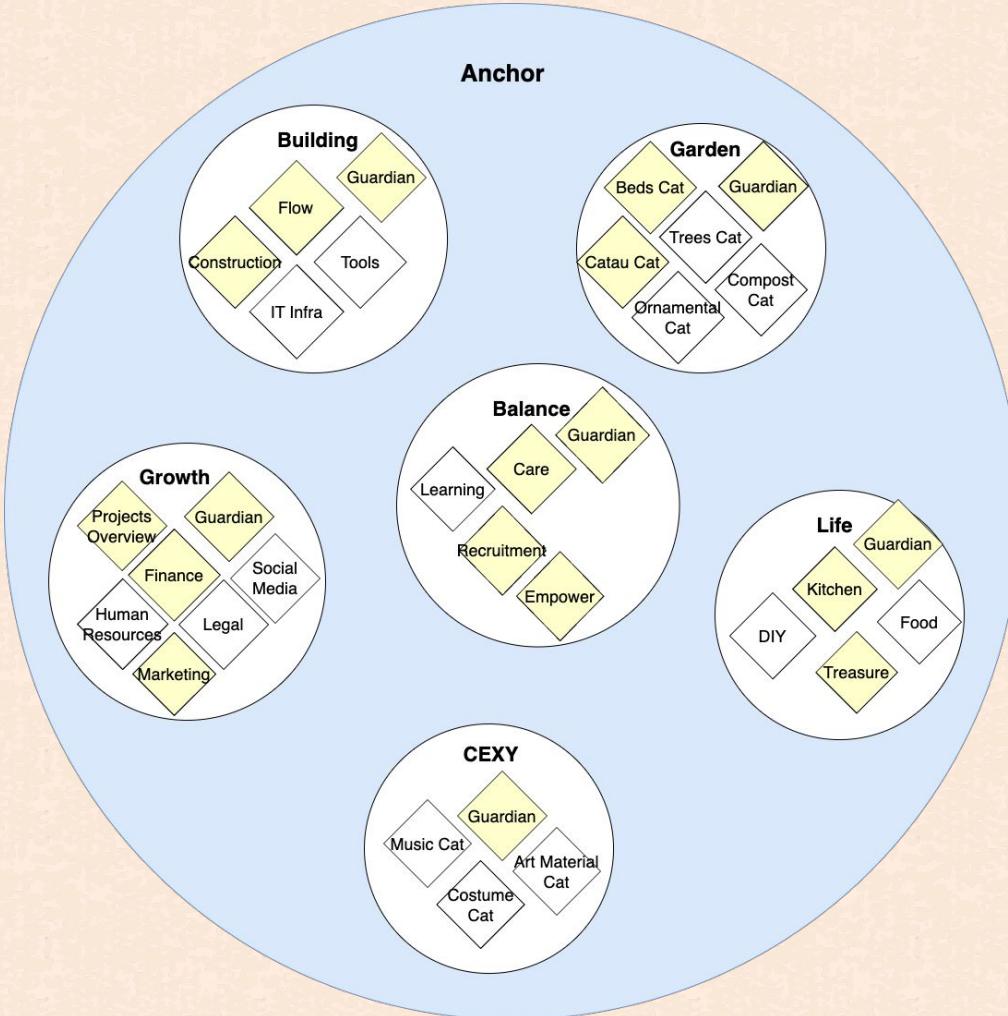

Inspiring people to listen and **connect to body, mind, spirit, and shadow**. Set of practices that invite us to **drop the mask**, reclaim our inner **wholeness**, and **bring all of who we are**

Show reliable alternatives

Example about what **humankind** can achieve through **collaboration and creativity**

How do we work?
