This is a Group exercise.

TASK(s) :
Establish Der Verein

The Verein model, commonly used in Germany and other European countries, provides a practical framework for communities, groups, and organizations to come together with a shared mission. At its core, a Verein is a registered non-profit association (also known as social clubs in English) with defined roles, governance, and objectives.

If you are not familiar with the concept, ask your peers in the group if someone could explain the functionality and purpose of such organizations.

- Discuss your reflections from Exercise 02 with your peers.
- Choose **one** '**Theme**' or a '**Critical issue**' that your group would like to pursue as a core motive for your Verein from this discussion.
- You can choose to represent any existing Verein that you are part of or resonate with the work they do.

Der Verein

Name of the Verein

Write a brief statement (3–5 sentences) what led you to choose the Theme for the Verein and why the chosen topic is significant?
